Subject: Glossary edit - recoverable flow & irrecoverable flow
Importance: High

Dear Paul,

I'm working through some final edits for Ag WUE, Water Transfers, Colorado River Hydrologic Region -- I will send them as a package.

As a "heads up" I want to let you know right away that *the Glossary does not have an entry* for either **recoverable flow or irrecoverable flow**.

These need to be created and added, because they are very important concepts in this Water Plan. I have found references in the Ag WUE and Water Transfer narratives and in Colorado River Region (and I think Evelyn is using them in all the hydrologic region water portfolios).

If possible, I would like to the definitions that are developed for inclusion in the Glossary.

Anisa
